Brightcove Announces Financial Results for First Quarter 2014

• First quarter revenue of \$31.1 million up 26% year-over-year

BOSTON, MA (April 30, 2014) – Brightcove Inc. (Nasdaq: BCOV), a leading global provider of cloud services for video, today announced financial results for the quarter ended March 31, 2014.

"Brightcove delivered strong first quarter results that exceeded expectations from both a revenue and profitability perspective," said David Mendels, Chief Executive Officer of Brightcove. "The consumption of digital content continues to move rapidly towards online and mobile platforms, which is driving digital content providers to increasingly focus on ways to monetize these emerging distribution channels. The combination of Video Cloud and Brightcove Once cloud services will help our customers capitalize on this trend by delivering personalized, targeted online video content and advertising. We believe Brightcove is uniquely positioned to be the cloud services vendor of choice for companies looking to expand and better monetize their online digital content presence."

First Quarter 2014 Financial Highlights:

Revenue: Total revenue for the first quarter of 2014 was \$31.1 million, an increase of 26% compared to \$24.7 million for the first quarter of 2013. Subscription and support revenue was \$29.4 million, an increase of 24% compared with \$23.8 million for the first quarter of 2013. Professional services and other revenue was \$1.7 million, compared to \$944,000 for the first quarter of 2013.

Gross Profit: Gross profit for the first quarter of 2014 was \$19.8 million, compared to \$16.3 million for the first quarter of 2013, and gross margin was 64% for the first quarter of 2014. Non-GAAP gross profit for the first quarter of 2014 was \$20.4 million, representing a year-over-year increase of 22% and a non-GAAP gross margin of 65%. Non-GAAP gross profit and non-GAAP gross margin exclude stock-based compensation expense and the amortization of acquired intangible assets.

Operating Loss: Loss from operations was \$4.7 million for the first quarter of 2014, compared to a loss of \$3.9 million for the first quarter of 2013. Non-GAAP loss from operations, which excludes stock-based compensation expense, the amortization of acquired intangible assets and merger-related expenses, was \$322,000 for the first quarter of 2014, an improvement compared to a non-GAAP loss of \$1.2 million during the first quarter of 2013.

Net Loss: Net loss was \$4.8 million, or \$0.16 per basic and diluted share, for the first quarter of 2014. This compares to a net loss of \$4.2 million, or \$0.15 per basic and diluted share, for the first quarter of 2013.

Non-GAAP net loss, which excludes stock-based compensation expense, the amortization of acquired intangible assets, and merger-related expenses, was \$500,000 for the first quarter of 2014, or \$0.02 per basic and diluted share, compared to a non-GAAP net loss of \$1.6 million for the first quarter of 2013, or \$0.06 per basic and diluted share.

Balance Sheet and Cash Flow: As of March 31, 2014, Brightcove had \$21.4 million of cash, cash equivalents and investments, compared to \$36.1 million at December 31, 2013. Brightcove used \$4.9 million in cash from operations and invested \$777,000 in capital expenditures and capitalization of internal-use software costs, leading to negative free cash flow of \$5.7 million for the first quarter of 2014. Negative free cash flow was \$2.9 million for the first quarter of 2013.

A Reconciliation of GAAP to Non-GAAP results has been provided in the financial statement tables included at the end of this press release. An explanation of these measures is also included below under the heading "Non-GAAP Financial Measures."

Other First Quarter and Recent Highlights

- Ended the quarter with 6,126 customers, which included a net increase of 61 premium customers. New customers added during the quarter included: Hallmark Channel, Yelp, RLJ Entertainment, TV Tokyo, Nippon Television Network, Northern Trust and Molson Coors.
- Zencoder has added support for the next generation of Web and mobile playback, as well as advanced codecs that will allow content providers to
 distribute video in broadcast and other professional workflows. This release includes support for HEVC (H.265), the successor to H.264, and MPEGDASH, an emerging adaptive streaming standard. Adding to existing Web and mobile encoding formats, Zencoder has added capabilities to address
 the diverse needs of broadcasters and other professional content providers, with codecs such as MPEG-2, MPEG-TS, JPEG 2000 and AVC-Intra.
- Content providers developing apps for Google Chromecast can now use Brightcove Once to quickly deliver and monetize feature-rich video content, including personalized advertising, to Chromecast viewers.

Business Outlook

Based on information as of today, April 30, 2014, the Company is issuing the following financial guidance:

Second Quarter 2014*: The Company expects revenue to be \$29.7 million to \$30.2 million, and non-GAAP loss from operations to be \$3.1 million to \$3.4 million. Assuming approximately 32.1 million shares outstanding, Brightcove expects its non-GAAP net loss per basic and diluted share to be \$0.11 to \$0.12.

Full Year 2014*: The Company expects revenue to be \$126.0 million to \$130.0 million, and non-GAAP loss from operations is expected to be \$5.0 million to \$7.0 million. Assuming approximately 32.0 million shares outstanding, Brightcove expects its non-GAAP net loss per basic and diluted share to be \$0.19 to \$0.25.

*With respect to the Company's expectations under "Business Outlook" above, the Company has not reconciled non-GAAP loss from operations or non-GAAP net loss per share to GAAP loss from operations and GAAP net loss per share, respectively, because the Company does not provide guidance for stockbased compensation expense, merger-related expenses, or amortization of acquired intangible assets, which are reconciling items between those Non-GAAP and GAAP measures. As the items that impact GAAP loss from operations and GAAP net loss per share are out of the Company's control and/or cannot be reasonably predicted, the Company is unable to provide such guidance. Accordingly, a reconciliation to GAAP loss from operations and GAAP net loss per share is not available without unreasonable effort.

Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation, difficulties integrating the technologies, products, operations, existing contracts and personnel of Unicorn Media and realizing the anticipated benefits of the combined business; our history of losses, our limited operating history; expectations regarding the widespread adoption of customer demand for our products; our ability to expand the sales of our products to customers located outside the U.S., keeping up with the rapid technological change required to remain competitive in our industry, our ability to retain existing customers; our ability to manage our growth effectively and successfully recruit additional highly-qualified personnel; and the price volatility of our common stock, and other risks set forth under the caption "Risk Factors" in our most recently filed Annual Report on Form 10-K, as updated by our subsequently filed Quarterly Reports on Form 10-Q and our other SEC filings. Non-GAAP Financial Measures

Brightcove has provided in this release the non-GAAP financial measures of non-GAAP gross profit, non-GAAP gross margin, non-GAAP loss from operations, non-GAAP net loss and non-GAAP basic and diluted net loss per share. Brightcove uses these non-GAAP financial measures internally in analyzing its financial results and believes they are useful to investors, as a supplement to GAAP measures, in evaluating Brightcove's ongoing operational performance. Brightcove believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing its financial results with other companies in Brightcove's industry, many of which present similar non-GAAP financial measures to investors. As noted, the non-GAAP financial results discussed above exclude stock-based compensation expense, amortization of acquired intangible assets and merger-related costs. Merger-related costs include fees incurred in connection with closing an acquisition in addition to fees associated with the retention of key employees. Non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures. As previously mentioned, a reconciliation of our non-GAAP financial measures has been provided in the financial statement tables included below in this press release. The Company's earnings press releases containing such non-GAAP reconciliations can be found on the Investors section of the Company's web site at http://www.brightcove.com.
